

Lie of the day

By Vetwife on Daily Kos

Trump claims Barack Obama is going to vote for him. This man lives in some reality we are not familiar with. A person who believes this would not hesitate to blow us all to kingdom come with a nuke.

Here is the quote.

www.newsweek.com/...

Former President [Donald Trump](#), the GOP's presidential nominee, has said on Friday morning that he thinks former President [Barack Obama](#) will vote for him over "extremely Low IQ" Vice President [Kamala Harris](#) in November's presidential election.

Writing on his social media platform, Truth Social, the former president said: "Obama admits a total lack of enthusiasm for Kamala, especially with Black Men. **I think Obama will be voting for me because he doesn't like the fact that Kamala is an extremely Low IQ Person!**"

This is certifiable insanity. Let me get this straight. Obama is out campaigning for Kamala and asking people to vote for Harris/Walz and taking Trump to task but he really is going to vote for Trump. . Trump is truly insane. I expect any day now he will claim Harris is going to vote for him.

Why is this not coast to coast news about an out of touch maniac? Obama must be laughing so hard his side hurts.
