What is the Regular Local Election?

- The new Regular Local Election is a statewide election for non-partisan officers and local government ballot questions that will happen in November of odd-numbered years starting in 2019.
- Consolidating all of the state's local elections into the Regular Local Election saves money for municipalities that opt-in and makes voting easier for eligible voters.
- The Regular Local Election creates an easier and more efficient time at the ballot box for eligible voters because there will be fewer elections on a more convenient yearly timeline.
- The Regular Local Election is new, but the voting experience will remain the same. Voters will have access to the same polling places as they usually do.
- The ballot you vote on in these elections will have races for school board members, Soil and Water Conservation District members, and other similar, non-partisan positions. Bond questions and local mill levies might also appear on these ballots.
- To get comfortable with what you'll be voting on, you can print out a sample ballot at NMVote.org to help research candidates and ballot questions in the comfort of your home.
